Innovative Technology Enabled.

Hiperdist UAE is one of the fastest-growing distributors in the region. Our parent company Hiperdist houses entities spread across the Middle East and Africa.

With teams that are agile and future-focused, we design and offer innovative solutions for vendors and customers alike that are backed by solid business frameworks. Our customized solutions are developed with win-win perspective for all stakeholders.

This approach has made us, in a short span of time, the distributor of choice for vendors and customers looking for solutions tailored to their needs.

Our relentless focus on innovative, custom-made solutions differentiates us from the rest of the distribution market that is built around efficiency. In contrast, we selectively choose and scale our operations for vendors with an aim to empower their growth.

Hiperdist's sustained growth in the last few years in this wide range of our brands highlights the successful adoption of our innovative business frameworks to house diverse and competitive brands complementarily.
